*\*Please Note: Transfers between accounts will occur after the prior month accounting has been reconciled. There is a lag to reconcile the prior month water accounting of approximately 30 days. (Example: If Transaction occurs on June 1, the account will note the transfer but not finalize the transfer until the May ET data has been reconciled, estimated to around July 1).*

# Water Transfer Details

Parcel Number (APN)	Parcel Acreage	Date Transfer is Active (Should take place the first day of the month)	Water Type Being <del>Transferred</del> Transferred (Please see provided legend)	Amount of Water Being Transferred (acre/ft)	Timeframe of Transfer (Default time frame is one year)	Current Land Use (e.g. pasture, bare ground)

The available water buckets to Transfer in the ETGSA include:

1. Native Sustainable Yield
2. Landowner Ground Water Credits
3. Landowner Surface Water Credits (Note: Surface Water Credits may be subject to additional Transfer review by Surface Water rights manager)
4. Tier 1 Transitional Water

Each party acknowledges that the ETGSA Rules and Regulations identify the water available for Transfer. Note that Total Precipitation is not available to Transfer to another landowner in the year of allocation (unless otherwise stated in the ETGSA Rules and Regulations). Total Precipitation allocations from previous years are transferable and are identified as a Landowner Groundwater Credit.
